Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

DETAILED ACTION

Specification

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are rejected because it is not clear from the second bulleted item of claim 1 if it is a component of claim 1 or if it should be a separate claim. Applicant has not drafted the claim in such a manner that one would recognize continuity between the first bullet and the second bullet. Clarification and correction are required.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams (US 6,413,612) in view of Hickman (US 3,310,163).

Williams teaches a matchbox with a detachable match strike surface attached to a surface of the matchbox by use of VELCRO (adhesive). The surface material may be cardboard (see abstract; col. 3, lines 1-10; claim 1).

Hickman teaches a matchbox bearing advertisement (see col. 1, lines 24-34).

It would have been obvious to one of ordinary skill in the art to place advertisement on the matchbox or strike surface because Hickman teaches that when matches are removed from matchboxes or matchbooks the user is required to look at the books or boxes to remove and strike the match. For this reason the match container is a prime means for conveying advertising messages (see col. 1, lines 15-23).

Williams fails to teach that the backing is wax paper. However, the cardboard of Williams protects the striking surface and therefore performs the same function as would wax paper.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is cited for teaching the general state of the art.
